Week End Rates Save Crops And Solve Food Problem

Some rain was seen and some
timely, and it was with the
help of God and the help of
this section of Alberta on Sun-
day and Monday. The long drought
was broken by the Sunday evening
and Monday morning. The rain
was cool and steady, and it was
a good sign for the crops.

There has been no rain here
for three weeks, the last
rainfall of any amount falling on
July 27th. During the three weeks,
the weather was usually hot and
during the past week it was un-
usually hot, so that the rainfall of
Sunday and Monday was a great
relief to the crops.

As a school superintendent for the fall term on Moscow, September 10th, and once more the "teacher" as a finished product out of the machine. In the new education is never imposed but is at best a high grade and is not a finished product out of the machine. The education is given them in the way of education. After passing that grade, they are on their own and they proceed to the next grade of the high school learned at school.

The curriculum of our high schools is not perfect in its means. In the old days at least it was a good deal better. The two and three branches of study had one thing to recommend them—a student had to work if he could gain a pass of even 60 per cent. But the curriculum of the new curriculum is Latin is now an optional subject and the heart of mathematics has been cut out.

People are beginning to see that education of the right kind will play a very important role in the post-war years. So they are much interested in high school education for their children. They are also realizing that our high school curriculum should be brought more closely in touch with actual life.

For example many people do not get out of their homes and get agriculture taught in our high schools, and not much training in

Now I do not know enough about education to explain why 40% of the people do not vote and why they prefer comic in the newspapers, or trips in the magazines to the Bible and Shakespeare. But I still believe that it does not matter what subjects are taught as the way they are taught, and that we can go on and on changing our curriculum without making a pin's difference in the training of our future citizens.

Over in Germany the educational authorities succeeded in training their children. This education was the worst possible kind, marked by the ideals of hate, intolerance, prejudice and cruelty. But all the same this kind of education succeeded, and it was effective to the extent that the boys and girls of Germany were prepared to fight and die for the terrible ideologies that were instilled in their minds.

night. I mean democracy and democratic institutions. Justice, tolerance, self reliance, co-operation, and a sense of obligation to the community at all times both in war and peace. The record of patriotic activities carried on by school children during the war demonstrates that they are quick to react to organized and co-operative effort. Yet the forty per cent of citizens who do not vote year after year have come from the schools of the past, and democracy means nothing to school children except a high sounding title.

The reason why Germany succeeded in educating its children in the way it wanted them educated, was by using the methods of discipline, hard work, and hard training. The reason why we find fault with the results of our educational system is that long ago it gave up the old ~~methods of~~ discipline, hard work and intensive training, and substituted something easier in the line of play or the enterprise, especially in the public schools.

We have been shown by the war that training is not a matter of leisure hours. It is a hard grind and while play should enter

The Canadian army was built up by constant training, physical culture and drill, so that every man became a useful member of his force. Yet we expect to build the citizens of the future by making education as easy as possible. In other words, the idea of drill and discipline does not apply in school life, if the educational authorities have their way. Disciplinary subjects like Latin and mathematics must be replaced by subjects

In the old days, education was a good deal more simple and it must have been more

## A GOOD FARMER IS A GOOD PLANNER

## It's the man who looks ahead who gets ahead.

GOOD management... essential to successful farming, as to any business enterprise... is largely a matter of timely marketing and careful spending... winning for the owner is more favorable to buy.

We all want things now... things we have not been able to get for the past several years. Some of these things are necessities... some are things that will contribute to our comfort and pleasure. Obviously, these things will be more plentiful. By waiting a little longer we will help to keep prices of things we need at lower levels and we will buy at better advantage when we do buy.

Remember we can invest our savings in the safest securities obtainable... Victory Bonds. Many Victory Bonds will be offered this Fall. They pay 3% interest... double back interest... and they are "liquid capital".

If we need cash in an emergency any bank will buy Victory Bonds at any time. And any bank will loan money on Victory Bonds.

The Ninth Victory Loan will be our last opportunity to buy Victory Bonds for a while. You can buy double this time—the same rate of savings as in previous loans will pay for twice as many bonds over the 12 month period.

FINANCING CAN BUY VICTORY BONDS ON CONVENIENCE

REQUIRE PAYMENTS THROUGH ANY BANK

... just sign a check from your bank which Victory Loan Indenture must be attached to... and the bank will pay for you. You can buy double this time—the same rate of savings as in previous loans will pay for twice as many bonds over the 12 month period.

### ROUND THE COUNTRY

#### GLEANINGS FROM HANARD

When my mind is blank, which occurs most of the time, I go to HANARD for a few days. There I have the opportunity of the last state of the country and my only regret is that these opportunities are not more frequent. The time will come, no doubt, when we will have television, and then we will be able to see, as well as hear our legislators at work. When they carry on the affairs of the country.

One of the most readable speeches made last week was that of William Irvine, member for Carleton, who was elected in parliament at the last election, after wandering in the wilderness for more than ten years. Mr. Irvine was a disciple of the late Sir Woodworth in the middle twenties, and he was one of the few C.C.F. members elected under the Peace River country to the Pacific coast, as a part of the government's rehabilitation program.

It will be noted that neither of these gentlemen has much to say about the business of the country, although Mr. Irvine carried his speech by advertising a "warrior" speech by the C.C.F. members elected under the Peace River country to the Pacific coast, as a part of the government's rehabilitation program.

It is about time that Mr. Irvine is back in parliament, where he belongs to be, as he is one of the few men who can make a speech which is not only a masterpiece of oratory but also a masterpiece of logic. ## "To Make A Clean Sweep"

(Editorial, New York Times)  
The House of Representatives has passed a bill to make a clean sweep of the federal government. The bill is designed to eliminate the thousands of positions which have been created in the federal government since the war. The bill is a landmark measure, and it is a good thing that it has been passed. It is a good thing that the House has shown its courage and its wisdom in passing this bill. **Dynamic Force**  
in Canada's Progress

Today, Canada has more developed electric power per head than any other country in the world. That's why Canada, though ranking only 31st in population, has become the second greatest leading nation in the world, and the fourth greatest industrial power among the United Nations.

Tomorrow is Another Day

The future of Canada is bright. Now that Victory is ours and peace has returned to the world, all of us have a definite obligation to our service men and women.

The best medical care and treatment must be given the returned and the wounded. Thousands of others to be clothed and fed and paid while they learn new peace-time trades and professions. Thousands to be paid the back-pay of those who made the supreme sacrifice. Thousands and other rehabilitation outlays involve hundreds of millions of dollars.

Our allies in liberated countries need food, clothing and other supplies to relieve suffering and distress, and they look to the United Nations, including Canada, to help them.

The money for all these things must be raised through the sale of Victory Bonds. You are again asked to buy Victory Bonds. Victory Bonds are backed by all the wealth of our great Dominion and its people. Remember, Canada will repay you for every dollar you invest in Victory Bonds. The same rate of savings as in previous Victory Loans will pay for twice as many bonds over the 12 month period.

There are 4 ways you can buy Victory Bonds:

1. For Cash.

2. By regular monthly payments over a period of 12 months out of your pay envelope.

3. By deferred payment plan. It is a way you can buy more Victory Bonds with money you get it.

4. By personal arrangement with your bank, trust or loan company.

REPAIRING OF HOG PRODUCTION

A Letter of Markerville, writing to the Calgary Herald last week, has the following to say as to raising:

If you want to keep on producing, raising, with all the rain and the drought, and we will do our best again. We will do our best again.

There are many reasons for this decline in hog production. Shortage of farm land, short crops of oats and barley in 1941, the narrow margin of profit between the market value of hogs and the market value of their grain for wheat, which may persuade many farmers to neglect hogs and specialize more in wheat.

When the writer started this article on the hog situation, we thought that the decline might be due to the fact that the farmers were short of grain. But we found out that the decline might be due to the fact that the farmers were short of grain.

**citizenship to own LIFE INSURANCE**

Coleman Killoran and his associates at Life Insurance Company of Canada are specialists in quality. They are people who have no unshared secrets. They know. Everyone has to deserve the strictest review.

They know the difference between old and insured, manufactured and new. They know the difference between chemical analysis performed, theoretical and actual. They know the difference between general promises of the manufacturers and what actually happened.

When it was decided that the "best" test results of the nation's best would contain the "best" results of every dollar invested by Life Insurance Company of Canada, it was decided to invest in the best securities, remaining 15 cents is invested in other securities, mortgages, etc. Besides developing the country. Life Insurance Company of Canada has guarded the homes of Canada from want and privation.

## Stettler and Lacombe Play 3-3 Tie Game

The Stettler Imperials were held to a 3-3 tie in the first tilt of the Central Alberta Hockey League played against the Lacombe Athletics on Saturday night. The struggle went on in league standing was easily as Robert Gould and Leonard MacPherson, star forwards, will be out of play for an indefinite period due to injuries received in the recent contest.

Forster and Corbridge led the Imperials on Saturday night in the first several columns. Forster made the first goal in the first period and the first in the second period. Forster also scored in the third period. Forster's goal in the third period was the only one of the game. Forster's goal in the third period was the only one of the game.

## Wolschtein Trims Canoe 9 to 3

WETASKIN — Wolschtein's canoe team defeated the Canoe Club of Wetaskin in a 9 to 3 victory in a recent contest. The victory was a surprise to many who had expected the Canoe Club to win.

## News For The Hard of Hearing

A bill by the national representative of the firm that provides precision hearing test instruments for over 80% of the deaf persons, under government and the armed forces in the U.S.A. Mr. R. K. Welch will be demonstrating to local individuals who are hard of hearing, the remarkable developments made during the recent session on correction of hearing defects.

Newly developed scientific methods make even severely deafened persons able to hear without effort in their hearing hearing capacity.

Your hearing is precious. Have it examined on the Deane-Moore Audiotest and you will be told exactly what can be done to help you, at no cost of obligation.

**Mr. R. K. Welch will be in Stettler at the ROYAL HOTEL, WEDNESDAY, DECEMBER 13th.**

From 10 a.m. to 5 p.m.

It is unable to attend write for information or free booklet to:

Deane-Moore, 1920 Jasper Ave., Edmonton, Alberta.

Please send no money or charge or obligation your free booklet to my name.

### SEASON'S GREETINGS

THE MANAGEMENT AND STAFF  
EXTEND TO ONE AND ALL THEIR HEARTIEST  
GREETINGS AND WISH YOU

A Very Merry Christmas

And a  
Happy New Year

NEED CROWN  
We wish to thank all the ladies  
who kindly and generously helped  
us through the year.  
The Red Cross Bazaar will be  
held on January 5, 1946.  
The following articles were ship-  
ped to headquarters in Calgary:  
14 pairs boy's new stockings  
12 boys' new mittens  
10 girls' shirts  
10 girls' shorts  
2 new infant's bonnets  
1 infant's jacket  
Total for the year 1945 amounts  
to \$100.00

Individual Counts  
The Germans, perhaps more than  
any other nation, influenced  
Christmas customs in the United  
States, which celebrate Christmas  
more extensively than any other  
country. Our custom of Santa Claus is  
derived from the German custom  
of Saint Nicholas, the Christ-  
mas figure in the home in southern  
Germany. In the last century  
Christmas evening was a festi-  
val custom in England of the fourth  
century.

### News From Fann And District

The district was shocked by the death of Mr. Leland W. Brierley on Thursday December 27th, the result of a tractor accident. The accident occurred on the farm of Mr. Brierley near the town of Fann. Mr. Brierley was driving a tractor and was killed when it overturned. He was a well-known man in the district and his death was a great loss.

**NEW BRICKS**  
All Clarks-Wilkes. The Strum Bros. Farm, Deane, Dugdale, Strum, and others. The district is now receiving a large quantity of new bricks from these sources. The bricks are of high quality and are well-suited for building purposes.

**STOCKS CLOSE EARLY ON SATURDAY**  
Sales in Stettler will close at 4:30 p.m. on Saturday. The district is experiencing a busy day with many transactions taking place. The early closing is due to the fact that the district is a small town and the business is concentrated in a few places.

**HIGH SCHOOL STUDENTS  
NEAR U.S.S.R. SPEAK**

On Monday, January 14th, at 1:30 p.m. Grades 10, 11 and 12 gathered in the Grade 12 Room to hear an interesting and charming presentation by a group of students from the U.S.S.R. who had been invited to visit the city of Edmonton. The students, who were accompanied by their teachers, gave a presentation on the life and culture of the U.S.S.R. and the role of the young people in the country. The presentation was very informative and interesting, and the students from the U.S.S.R. were very friendly and helpful. The presentation was a great success and the students from the U.S.S.R. were very well received. The presentation was a great success and the students from the U.S.S.R. were very well received.

REAL MONEY AND PROMISED MONEY

A MAN UNUSUALLY KEEPS a lot of "money" in his pocket. There are people who hold a dollar bill in their pocket, and they are not the only ones who do so.

I know that the money is in the pocket, and it is not the only one who does so. There are people who hold a dollar bill in their pocket, and they are not the only ones who do so.

Yet you had 1,000 on-cent pieces in the first place, and you brought the same amount of metal to the bank to exchange for two dollar bill. Unfortunately, you find that you had melted off the inscription "one cent" on each coin, and this inscription is merely a promise to pay you one cent. When it is melted off, you find that the metal is worth only a few cents.

Well, then, what real money? The real money is the gold and silver coins, and the gold and silver coins are the only ones who do so. There are people who hold a dollar bill in their pocket, and they are not the only ones who do so.

By the way, the 12,000,000 people of Canada, and the 120,000,000 people of the United States, are not the only ones who do so. There are people who hold a dollar bill in their pocket, and they are not the only ones who do so.

The Government is not the only one who does so. There are people who hold a dollar bill in their pocket, and they are not the only ones who do so. There are people who hold a dollar bill in their pocket, and they are not the only ones who do so.

What, then, is the real money? The real money is the gold and silver coins, and the gold and silver coins are the only ones who do so. There are people who hold a dollar bill in their pocket, and they are not the only ones who do so.

The monthly meeting of the Club was held in the Community Hall and was in honor of the members. Members of the Leo and Endang clubs were in attendance as well as visitors from the surrounding district.

President Mrs. R. Wymark was in the chair and after singing the Ode and reciting the Creed, business was conducted in the usual manner. Fifteen members answered the roll call.

The rolls donated by Mrs. Ross and Mrs. John Jamison was won by Mrs. Ralph Waters of Knappa and brought the sum of \$5.50.

Letters from Mrs. E. C. Campbell, Mrs. Wm. McCrindle and Mrs. F. Putnam thanking the members for gifts and cards were read by the president.

Plans for Mrs. E. C. Campbell to host the Home Circle members to visit the Leo Club on June 12th. A letter of thanks from Endang Glee Choir Club for the invitation to our meeting.

Byrnes, Mrs. D. Wood, Red Willow and Mrs. John McAllister of Gopher Head for the Cemetery Fund were received. Donation from Mrs. L. A. Myers for the same fund and General Fund.

Our next meeting will be held in the Parish Hall on June 5th. Mrs. Waymark and Mrs. Lloyd Walker will be co-hostesses for this meeting. The raffle is to be donated by Mrs. Clyde Wooten. Our special program opened with the singing of "O Canada" followed by a piano

## Seeds of Strife

For more than a generation Alberta farmers have patiently and patiently built up their marketing organizations to protect themselves and better their economic position. These farm organizations are built on a basis of service rather than profit—like the Ontario Hydro Electric, the post office, and various municipal enterprises.

The Income Tax Payee's Association has been conducting an intensive, widespread and aggressive propaganda campaign to induce the Canadian government to impose federal corporation taxation on these service organizations. The evidence available would suggest that the Income Tax Payee's Association is really a creation of powerful Canadian financial institutions and corporations. The purpose of the campaign is to effectively cripple farmers' organizations as well as other enterprises built up by the people for their own use.

The underground Alberta farm organizations are largely successful over the innocent attitudes fostered by the authority of widely operating through the Income Tax Payee's Association. It is felt that Alberta people are being misled and presented with an unfair picture of the true situation.

Alberta farmers have in the past been producing over billions of dollars worth of new wealth. The bulk of this new wealth has been drained off to Canada (Quebec and Ontario). These two wealthy provinces contribute 77 per cent of all taxes collected by the Dominion Government and the Province of Ontario. It is this drain that has made the Alberta farmer the poorest in the Dominion. If farm co-operative organizations are made subject to federal corporation taxes, individual tax payers will benefit little.

Business interests cannot afford to engage in a life and death struggle with the farm people of Alberta. But fighting with farmer co-operatives, the Alberta farmer is fighting with the farmer co-operatives. The Alberta farmer is fighting with the farmer co-operatives. The Alberta farmer is fighting with the farmer co-operatives.

Alberta people are better living conditions on Alberta farms, whose objective is better living conditions on Alberta farms.

**WHILE AGRICULTURE** is preoccupied at the present time, due to the natural effects of the war and the demand for food all over the world, this does not mean that farmers will be prosperous five years from now or even ten years from now. Yet the whole future of Western Canada, including our own provinces and our own district of British Columbia on farming. We can talk about industries, but as far as the small boys are concerned they are few and far between.

Right at our doors we have the rural communities of Alberta, and they mean the whole thing when we talk about the prosperity of Alberta. Come wet years and even dry years the farmers go on working, and their purchasing power is in direct proportion to the revenues of their farms.

But what about the revenues of the farms? I am taking this long view and not dealing particularly with the present. The year 1945, which was satisfactory enough because of the increased year from 1944 to 1944 but since 1944 it has been steadily decreasing.

Starting in 1941 there has been a steady decline in the production of many and other livestock. At the same time there has been a steady decline in the production of many and other livestock. At the same time there has been a steady decline in the production of many and other livestock.

These two things are definitely related to each other. The farmer went out of his production for example, because most went out. When he cannot make enough profit in one line of agriculture due to rising costs, he switches to something else and before he realizes himself to something else, his resources have been cut down.

What is the evidence in regard to increases in farm costs? Now we do not need to discuss this matter very much, because the farmers know that their costs have increased and they can feel the pinch of that increase without needing figures.

But if the evidence in definite figures is required, we need only point to the increase of 12% in farm machinery; to increase from 10 to 20% in household equipment; to increase from 10 to 20% in household equipment; to increase from 10 to 20% in household equipment.

Looking at it another way, we have only to study the increase in wholesale prices as furnished by the Bureau of Statistics. Since last September, the rate of increase has been as follows: October, 1.5%; November and December, 2.5%; January, 2.5%; February, 2.5%; March, 2.5%; April and April an increase of 11%.

All of this has happened because the government has increased its cost of production on manufactured goods. No cost of production on manufactured goods. No cost of production on manufactured goods. No cost of production on manufactured goods.

## Four-Year Wood Agreement Signed

OTTAWA—Trade Minister Macdonald announced Thursday that a four-year agreement has been signed between the Canadian and American governments regarding the export of softwood lumber.

The agreement, which was signed in Washington, D.C., on July 1, 1946, provides for the export of softwood lumber from Canada to the United States for a period of four years.

The agreement also provides for the export of softwood lumber from the United States to Canada for a period of four years.

The world's finest! That is what moonrises are saying  
from Devonian dinosaur Times, also time that records

the protective principle of armor with the smooth-riding resilience of rubber... rugged, long-life cushions slow the hard jolts that greater safety, secondary and undercarriage under greasing, painting, road tests far beyond any hazard met in ordinary motoring.

Think of a tire with extra protection at every point of wear... with special corner-riding components so resilient too... using specially engineered compounds to resist shocks, cuts, wear and tear... made more rugged with extra-thick rubber and reinforced casings. These are Dunlop's *Armored Tires*... latest achievement of the world's longest tire-building experience.

## A.F.U. Strike Continues At Settler; Milk Being Delivered

A serious drive for increased membership is being held in the Settler district this week as a result of a public meeting held in the K.C.A. Hall on the morning of Sept. 10. The meeting was called by James Farber, secretary of the district, to discuss methods of organizing the 20 to 30 dairy-farm strikes in the local-

Dr. Joseph T. Marchman, chairman of the committee, said that the committee had been established in the district from the fact of lack of appreciation and said that this was the first time that the committee had been established in the district.

Uniforms are already on order.

## Music Club Will Hold Winter Concerts

Another series of three musical evenings by highly talented artists will be staged in Starling this winter according to a statement issued after a vote-gathering session of the Starling Music Club held in the Starling Hotel, Starling, Friday, September 10.

It will be remembered that the club staged highly entertaining concert last winter. These "Dinner and Music" events were sponsored by Mrs. E. J. Gorman, Mary Hughes, Lou Chalmers, Margot Silver, Cora Clark and Ralph French.

**PERMAL HOCKEY TEAM**  
WANTS

The district was shocked on Monday of the sudden death of Mr. A.T. Richards of Fanning. Richards had not been feeling well for several days and died of heart failure.

Three men felt that they could spare the time necessary for participation in league hockey. Mr. Petersen has possession of the sun records and equipment which will be turned over to the new executive, if one is formed.

At about 180 friends and neighbors gathered at the home of Mr. and Mrs. Geo. Laflowe to celebrate their golden wedding anniversary on Tuesday, Nov. 17th. It also being the birthday of Marguerite Laflowe, their grand daughter.

A three tiered wedding cake adorned the table which was laden with flowers and autumn leaves. A lovely set of chairs and red table was presented to them from friends and neighbors. All the children excepting Mrs. Van Dyke (who resides in California) were present, along with the following:

Mrs. Doherty and Mrs. Moriarty were present at this wedding 26 years ago when was held in St. Barth's Church, Wexford. Mr. LaRue ran a livery barn in Wexford after which they moved to Dabshall and later to Settler where they still reside.

Out-of-town guests were Mrs. Fred Bourque of Wexford, Mrs. E.J. Doherty of Calgary, and Mrs. Moriarty, sister of Mrs. LaRue Oliver, B.C. besides a host of friends from Settler and surrounding district.

## Kinsmen Playground Will Be Completed In 1947

The Kinsmen Playground, a valuable community project, for the past several months has been the subject of much discussion and planning. The playground is located on the corner of 1st and 2nd streets, and is a gift of the Kinsmen Club to the community. The playground is a large, open area with a central pool and slide, and is surrounded by a fence. The playground is a gift of the Kinsmen Club to the community, and is a valuable asset to the town of Stettler. ## Construction of Modern Stettler Hotel to begin 1947

The photograph below represents the architect's plan of the proposed Stettler Hotel, on which operations will commence in the Spring of 1947, although some work will be done on the basement level this year.

The building will be a modern structure in design and construction, and will be constructed of concrete throughout and will be fireproof.

Outside of Edmonton and Calgary, there is probably no hotel in the province which will compare with this building. It will comply with the most stringent building codes in Canada and the United States and it will be an entirely new departure from the usual hotel construction in this province.

The interior of the building will be a modern in layout and in construction. The main entrance will be a wide vestibule with glass doors and a large hall. From the hall a corridor will lead to the main dining room and the kitchen.

The main dining room will be a large hall with a high ceiling and a large chandelier. It will be a modern in layout and in construction. The main entrance will be a wide vestibule with glass doors and a large hall.

#### THE WORLD WEEK OF PRAYER

The first full week in the New Year is set apart as a week of prayer. Christians throughout the world, conformably, arrangements are made to hold this week in Stettler at the various churches at eight o'clock in the evening of January 7, 8, and 10. Watch the paper for their announcement, and keep your dates open. The world needs effective fervent prayer of faith-men and women. \$1-10p

#### SCHOOL LUNCHEONS

Teachers, particularly in rural areas, who are interested in seeing that pupils have proper noon-day meals, are notified by the Department of National Health and Welfare that guidance on organization of such lunches is available. The Provincial Health Department, school teachers may obtain a film-strip entitled "The Rural School Lunch", which illustrates simple ways of planning a programme of children's mid-day meals at school.

## STETTNER'S NEWEST GARAGE WELCOMES YOU

The Building Before Completion

**New Streit Building Is An Asset  
To Town And District**

Long homes with all steel rigid  
similar to those used in B.C.A.P. houses  
are the result of the building  
and are maintained to support 100  
feet and of more. The building  
is built by over a mile of hot  
water pipes, which are heated by  
the electric heating lights will be  
supplied by many modern lamps.  
The shop is designed to take  
care of a large amount of work  
and may be handled simultaneously  
by the hands.

**EQUIPMENT**  
Equipment is the very latest.  
There are three bays, a two by  
three and two single bays.  
These bays are the most modern in  
Western Canada, and do away with  
the four bays found in earlier  
models. Other equipment includes  
a Lincoln grinding machine which  
cut in the neighborhood of \$100,  
including bar, heavy chains, brush  
grinding, air compressor, valve re-  
sharpening and two 100 gallon  
gasoline tanks.

**STETTNER VULCANIZING SHOP**  
The Stettner Vulcanizing Shop  
will be operated by the owner, J.J.  
Cortigan, in the new building.  
This new shop will have outstanding  
equipment. All kinds of tire work  
will be vulcanized and a tire  
shop has been installed the latest  
line filling. Mr. Cortigan will make  
himself a specialty.  
Streit's Sales and Service location  
will be at the opening of the garage  
and show room on Saturday,  
January 11th and guests will be  
shown the many interesting features  
of the building and equipment.

**They Built It**  
Joe Viger, Contractor.  
John Peterson, Cement.  
L. Pelletier, Plumbing.  
Ford Green, Plastering.

**"Cash In" YOUR EMPTY BEER BOTTLES**

The shortage of bottles is acute. In order to maintain the current supply, however, of Alberta request your co-operation in returning empties. Don't keep empty bottles around the house. Apart from taking storage space, they represent a cash to you. If you live in points where bottles are needed (see below) phone for a pickup, or deliver them yourself. If you live in points where bottles are not needed, simply drop them off at the nearest point. Payment will be made forward to you promptly. Get out your empties, and turn them into cash.

**It's The Local Touch That Really Counts**

The magic power of local news is to win and hold the attention of the community. It is the local touch that makes the news really count. It is the local touch that makes the news really count.

Only in the Weekly Newspaper can people satisfy their craving for this kind of news, their craving for news about what is going on close to home. And only there can they find every day the local news that they need. With this news they can keep up to date on the news that is going on in their own community. With this news they can keep up to date on the news that is going on in their own community.

The Stettler Independent gives complete coverage in town and country surrounding Stettler. You can't afford to neglect these bytes. Circulation breakdowns give you report.

## Gibson's Gift Store renders Service Today on The Tomorrow Plan

If a store intended to remain in business for only one day, it would not need to gain the good will of customers. It would not be interested in the business it could do tomorrow, next week or next year.

We believe that our good reputation will remain if we do not disappoint our customers, and by keeping this in mind the members of this firm take personal interest which is as necessary to satisfactory service and satisfied customers.

Gibson's Gift Store features items of all kinds, suitable for every occasion and in a complete price range. Flowers for every occasion a specialty.

Dear Sir:

Some while ago I wrote you regarding the new 1947 Pontiac. I am pleased to hear that you are considering the new 1947 Pontiac. I am pleased to hear that you are considering the new 1947 Pontiac. I am pleased to hear that you are considering the new 1947 Pontiac.

**1947 PONTIAC**  
A fine car made finer

Here's our picture for '47!

We are proud to present for 1947, the finest car Pontiac has ever produced.

In the new 1947 Pontiac, now in production, all of Pontiac's traditional quality, dependability, economy, trouble-free operation, ease of handling and downright goodness have been realized. These are the qualities that have made more than a million friends of more than a million Pontiac owners.

Added for 1947 are appearance changes to enhance Pontiac's beauty, mechanical refinements

to uphold Pontiac's known reputation for dependable, trouble-free performance.

For 1947, Pontiac again offers four outstanding series—the thrifty *Flintlander* and *Flintlander Special* lines, proud leaders in the low-price field—and the *Torpedo* and *Streamliner*—long, luxurious, both of them built to house a smooth-running Six, or an economical Eight.

Millions have learned to expect an outstanding value from Pontiac—and the 1947 Pontiac fulfills their expectations. The 1947 Pontiac is a fine car made finer.

**Chevrolet Announces New 1947 Models**

With virtually no interruption of production for the change-over, General Motors of Canada today announced its new line of 1947 Chevrolet passenger cars, complete line of 11 models in three series, all generally improved.

The three series are the specially styled Fleetline, the deluxe Fleetmaster and the economy range Buickmaster. All comprehensive advances over previous models in exterior styling, interior appointments, engine, chassis and chassis.

All Canada welcomes the **1947 CHEVROLET!**

**BIG-CAR QUALITY AT LOW COST**  
now made even bigger-looking, even better-looking even more beautiful and desirable in every way

Chevrolet dealers are displaying the newest creation of Canada's largest producer of automobiles—the new Chevrolet for 1947—offering you an even greater measure of BIG-CAR QUALITY AT LOW COST!

See it and you will agree that it is the biggest-looking, and best-looking Chevrolet ever built. It's more beautiful in every way, both inside and out. It's designed to out-style, out-value and out-drive all other cars in its price range. And above all, it reveals that sterling Big-Car quality—in every phase and feature, in every part and pound of material—which buyers agree is exclusive to Chevrolet in its price range.

**You Red Cross help is needed!**  
In frontier districts of Canada the nearest hospital or doctor may be a hundred miles or more away. The Red Cross helps establish outposts of health and nursing stations in these remote regions. Today a whole chain of Outpost Hospitals can be found in the frontier districts of the Dominion. They bring medical science within reach of these isolated communities. Hundreds of thousands of patients find comfort and relief in these outposts.

CALLS FOR NATIONAL UNITY  
IN FIGHT AGAINST DISEASE

The persistence of paratuberculosis, the most common cause of death in Canada, has led the federal government to call for national unity in the fight against disease.

Where do we WANT to go  
from here?

We in Canada have now come through the hardest part of the post-war adjustment period. By living in moderation only what we really needed by resisting the natural desire to rush madly after long-absent luxuries, we have been able to keep prices at reasonable levels. We have been able to keep prices at reasonable levels. We have been able to keep prices at reasonable levels.

CONSIDER THE CASE OF SOLOMON

A good man, I feel, is one who is not afraid to stand up for his principles. A good man, I feel, is one who is not afraid to stand up for his principles. A good man, I feel, is one who is not afraid to stand up for his principles.

Well, poor old Carlyle did a lot of good work, but he had a lot of a time doing it. He was the first to see the need for a third party. He was the first to see the need for a third party. He was the first to see the need for a third party.

Consider the case of Solomon who had an orchard of five hundred vines and seven acres of land. He was the first to see the need for a third party. He was the first to see the need for a third party. He was the first to see the need for a third party.

The Completely Automatic HOME LAUNDRY

WITH THIS MACHINE YOU ALWAYS HAVE AN AUTOMATIC WASHING

It's the only machine that does everything you need to do in the laundry. It washes, rinses, spins, and dries. It's the only machine that's so simple to use that even a child can operate it. It's the only machine that's so compact that it fits in any kitchen. It's the only machine that's so durable that it will last for years.

## Alberta Hail Insurance Board

I recognize that hail is a serious threat to the farmer. Hail can destroy crops and livestock in a matter of minutes. The Hail Insurance Board is the only organization in Canada that can protect you against hail damage. It is a non-profit organization, and its purpose is to provide hail insurance to farmers at a reasonable cost.

INSURE RIGHT WAY—DON'T PUT IT OFF.

## GROWTH OF TREES

Two main reasons why trees grow faster in certain areas than in others are the amount of rainfall and the amount of sunlight. In the Stettler area, the rainfall is about 15 inches per year, and the amount of sunlight is about 2,500 hours per year. This is a good combination for tree growth.

The majority of trees planted here have a high rate of growth per acre of ground. These trees are planted in rows, and the spacing between the rows is about 10 feet. This allows the trees to grow without competing for space.

In addition to the regular business course we now offer a complete Medical, Secretarial Course, which Medical students graduate next year. We assist our students in finding work after they complete their courses, 100% placed during the past year.

A MOTHER may die unless they give blood

OF ALL the women who die in childbirth, every fourth mother dies of hemorrhage. Three-quarters of these mothers can be saved... with but a small gift from you.

A great new civilian Blood Transfusion Service has been opened by the Canadian Red Cross. This Service will supply hospital patients across Canada with whole blood and plasma... FREE... not even a Hospital Service charge.

Volunteer donors are urgently needed to build up the blood bank. After you register you will be asked to donate blood only two or three times a year. And each time you donate, you help save someone's life and store that person's blood for friends and loved ones.

Contact your local Red Cross Branch or Clinic and tell them—"Yes, please enroll me as a blood donor. I want to give blood to save someone's life!"

#### THE PROBLEM OF INEQUITY

Mr. Thomas R. Thomas had a letter to the editor of the Stettler Independent, in which he expressed his opinion on the inequity of the present system of taxation. He stated that the present system was a gross injustice to the farmer and the small business man. He suggested that the government should take steps to reform the system.

**Who Gets Our Oil**  
An editorial in the June 1947 issue of the *Stettin Independent* was entitled "Who Gets Our Oil". It was a scathing attack on the National Petroleum Council and its members, who were accused of being "oil barons" and "oil speculators". The editorial stated that the council was "a body of men who are interested in the oil business for its own sake, and not for the sake of the people who pay for the oil". It also stated that the council was "a body of men who are interested in the oil business for its own sake, and not for the sake of the people who pay for the oil".

**To The Man On The Land**  
**"A Personal Message"**  
This is a request for greater support for Alberta Pool Elevators in the 1947-48 crop year.  
**The Alberta Wheat Pool is an Alberta farmers' co-operative organization. It happens that I am chairman of the board of directors. I am a working farmer like yourself. Having been chosen to lead this organization, I am doing my best to make it a success.**  
Every bushel of grain delivered to an Alberta Pool Elevator makes an important contribution to the farm co-operative movement.  
The farm co-operative movement is the greatest and most effective effort in self-help.  
If you are not a patron of Alberta Pool Elevators, I ask you to be one. If at all possible, deliver your grain this season to a Pool Elevator. Let us make this Alberta grain co-operative, outstanding success and a monument to the enterprise, solidarity and co-operative spirit of Alberta farmers.

### Poplar Grove News

During the evening Mrs. Kishel presented the point of home with a lovely luncheon, a piece of money to buy a new lamp and a box of soap. A very enjoyable evening was spent on August 15th and the new Water Bureau gave a number of luncheon and farewell party for the Poplar Grove who is leaving for Regina. A delicious supper was served and a large crowd of friends gathered to see the boat and bid her good-bye.

### TEACH THE CHILDREN THE MEANING OF THE WORD DANGER

Too often a young boy is snatched out by drowning; a child is fatally wounded by firearms; a fire set by little hands playing with matches takes life and property. It is most difficult to remove the causes of accidents, but by intelligent instruction children can be taught that "danger" is a poor playmate.

# Mining Engineers Remaining In Canada After Graduating

Of a group of 1947 class of mining engineers from the University of British Columbia, only 12 are remaining in Canada after graduation. The rest have gone to the U.S., Australia, New Zealand, South Africa, and other foreign countries.

The 1947 class of 44 mining engineers from the University of British Columbia, graduated on June 10. Only 12 of the graduates are remaining in Canada. The rest have gone to the U.S., Australia, New Zealand, South Africa, and other foreign countries.

"The reason for this is that the Canadian mining industry is not expanding rapidly enough to absorb all the graduates," said Dr. J. H. Macdonald, head of the department.

Macdonald noted that although the first class of graduates is not large, it is a good one.

Ever since 1919 we have operated a successful restau-  
rant business under the name of the Club Lunch. During  
those years we have built a reputation for fine food and  
excellent service. We have made many friends whose pos-  
session has made our new premises possible. We will look  
forward to serving them now under more pleasant circum-  
stances.

Feeling that Stettler and district have a bright future  
we have built an entirely new and modern restaurant where

nothing has been left undone for the customer's comfort.  
Service will now be greatly improved and the food, cooked  
in our bright and modern kitchen, will be the best. Under  
present conditions of high operating costs prices will re-  
main at a remarkably low level.

Drop in on us next Thursday and we will be glad to  
show you through our new restaurant.

Pam Yeh and Harry.

The ceremony was attended by Vern Anderson, Art Tigner, uncle of the bride, from Calgary, and Sr. Armand of Lacombe, acted as usher. Evelyn Wilson of Calgary, sang "Will You Be Mine" during the singing of the Registrar. Mrs. Tigner presided. The wedding March was accompanied the solemn "Nearer My God to Thee".

The tables were decorated with pink and blue streamers and flowers. The Baby Mary table was centered with a decorated wedding cake and pink roses. A very modern, Raingo Table Company table provided the place for bride and the groom. The bride and Mrs. Lincoln left for a honeymoon in Chicago. For the wedding the bride wore a green crepe suit with brown accessories and a gardenia corsage.

### HEALTHY AT HOME

It's easier and cheaper in the long run to use care in buying and serving food, according to nutrition experts. From the Department of National Health and Welfare comes a warning that the home where meals are prepared is often the place where

some of the essential elements are overlooked is likely to have an irritable, ailing brood. Fresh fruits and vegetables, Canada Approved brand and other healthful foods, will help the housewife keep the family happy and healthy.

### UNIVERSITY OF MANITOBA Imports Devizes Sheep to Improve Canadian Strain.

An interesting new breed—the Devizes Cheviot—arrived in Western Canada at Stettler, Alta., on Monday, Dec. 3, 1947. The sheep were imported by the University of Manitoba, as the Devizes Cheviot is one of the best in the world.

The Devizes Cheviot is a cross between the Cheviot and the Lincoln. It is a medium-sized sheep, with a thick, wavy coat. It is known for its hardiness and its ability to thrive in cold climates.

The University of Manitoba is interested in improving the Canadian sheep strain. It has imported several breeds of sheep from other countries, including the Devizes Cheviot.

### Canada's Agricultural Planning

The article following is taken from the December issue of the *Journal of the Department of Agriculture*. It was written by J. A. Macdonald, Assistant Secretary of the High Commissioner at Ottawa. It is a summary of the Department's plans for the future.

**WANTING PRODUCTION**  
Over the past few years, the Canadian farmer has been asked to produce more food and fiber than ever before. This has been done by increasing the area of land under cultivation and by improving the methods of production.

The Department of Agriculture is now planning to increase the production of food and fiber even more. This will be done by increasing the area of land under cultivation and by improving the methods of production.

NOTICE

If you are an Electric Power User  
We Need Your Help

In order to secure an adequate supply of power to the  
mains and in this emergency, we ask all of our customers to  
voluntarily reduce their use of power for certain hours each  
day, from now until Christmas time. The mains have already  
agreed to curtail use of power during peak periods. Please  
your plant in your emergency, we are forced to request the  
operation of all commercial and domestic users to offset the  
danger of complete breakdown of electric service.

World's therefore reduce to the bare mini-  
mum your use of power between the  
HOURS OF 5 P.M. AND 8 P.M. each  
day, except Saturday and Sunday, until  
Christmas time.

This request has been formulated due to the unavail-  
able delay in delivery of new equipment to our generating

## Wrappings Are Half The Pleasure Of Friendly Yuletide Giving

Half the joy of Christmas gives lies in the thrill of opening treasure packages, of smiling family faces and wrapping off layers of green, red, white, silver or gold. There's something in the excitement of gift-giving within reach of every person's hand.

Magazines, for instance, are a perfect mix of treasure and Christmas. The related advertisements and illustrations are so neatly cut out and pasted on in any number of effects.

A charming way to design a gift box is to wrap a very costly item in white paper. All the right hand corner paste the picture of a red candle, and in the left, a sprig of holly—both of which can be cut out of magazines. The red and green or silver.

A very attractive way to wrap anything that is folded into an oblong roll, is to make a cracker of it, decorated as appropriate. Then, wrap the article in white tissue, then place, decorating with scraps of colored paper and finish with the red and green to match the cracker tissue.

A clever way to wrap silk stockings is to cut out a sock from heavy paper or fabric, paste or sew red and green, placing the heel and toe in the back, placing the heel and toe in the back, placing the heel and toe in the back.

One of the best ways to give gifts is to use a box wrapped in deep blue paper with a gold pattern and seal with a gold ribbon.

A conventional 12 inch box wrapped in a gold and red paper.

Our wishes for your health, happiness and prosperity are unlimited. May you have an extra share of all things good this coming year.

## Be Careful of Fire At Christmas Party

Every year, some Christmas parties are marred by fire accidents. The Christmas tree, or the decorations, or the flimsy paper dresses of little children. At times, the results are tragic. Without care, the kindling people may only be selling a danger trap for their own safety.

For example, light candles in paper lanterns suspended from the ceiling or hung on a Christmas tree, or an improperly insulated string of electric lights may give occasion to danger. With children running about in their flimsy frocks, the greatest care must be exercised and under no circumstances would it be possible for the children of the department to come into contact with a naked light, whether it be from gas, candle or electricity.

Flame from a stove, also, a great deal may blow curtains or decorations across a naked light, the result is done.

Great danger lies in using strings of electric lights that have been used the year before unless they have been thoroughly examined and tested before being put up. Each inch of every set of lights should be carefully inspected for worn wires in the insulation or other cover. If it were possible to use a string of lights that is wrapped around it will help to prevent accidents. If the insulation is worn, the job is one for a practical electrician. The rough edges of insulation will have to be trimmed off and the wires wrapped specially with friction tape above the break, wrapping each turn to make a quarter of an inch and ensuring that the damaged area is completely covered.

Often cords become worn when they enter the plug. The wire must be removed, wrapped separately with tape, and reconnected. Broken or damaged plugs should be discarded. Bulbs also should be tested before being placed.

Christmas lights gleam—shining with all our bright hopes for the happiness of peace to come.
